Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Amendment

The Examiner believes all items of note the applicant has raised are addressed in the following office action.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

Claims 1-3, 6-12, 28-30 are rejected under 35 U.S.C. 102(e) as being unpatentable over Isikoff US 5,748,084.

Art Unit: 2134

As per claim 1, 2, 6, 7, 9, 10, and 12, Isikoff discloses a security method to prohibit access to a computer when a security device (beacon) has been removed from said computer, (Col 4 lines 39-41). Isikoff discloses storing data in a first storage means (firmware) in which only authorized users are able to change (Col 4 lines 45-50). Isikoff discloses dynamically determining if the security device (beacon) is removed or altered on said computer, and if so, prohibiting access, (Col 4 lines 50-53). Isikoff discloses password authorization to determine whether access to the computer should be prohibited, (Col 9 lines 8-11).

As per claim 3, Isikoff discloses password authorization to determine whether access to the computer should be prohibited, (Col 9 lines 8-11).

As per claims 4, 8, 11, and 30 Isikoff discloses that the security device (beacon) is able to determine if it was legitimately removed from the computer (Col 4 lines 45-49).

As per claims 28 and 29 Isiskoff discloses that remote actions may be made using RF signals, (Col 9 lines 59-64).

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 14-19 and 21-26 are rejected under 35 U.S.C. 103(a) as being unpatentable over Isikoff US 5,748,084 in view of Nerlikar US 5,629,981.

As per claims 14-19, and 21-26, Isikoff discloses a security device (beacon) in a PCMCIA device, (Col 4 line 46). Isikoff discloses an RF pager system (Col 9 lines 59-65). Isikoff provides for the addition of a second antenna (Col 10 lines 20-25). The PCMCIA card is inserted into a device bay, the PCMCIA slot. Isikoff does not disclose an RFID tag with RF antenna.

Nerlikar discloses a PCMCIA card containing memory, with RFID and an RF antenna. It would be obvious to one skilled in the art to modify Isikoff's PCMCIA card with the RFID, memory and RF antenna of Nerlikar because the incorporation of the RF elements into the PCMCIA card would make the security system more secure, and reliance on an external antenna would not be needed.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
